Leather Designer And Prototype Specialist

Description

Lead the conceptualization and creation of leather goods—from initial sketch to working prototype—ensuring on-brand aesthetics, functionality and manufacturability.

Responsibilities

Develop original design concepts, mood boards and technical sketches

Build physical prototypes and iterate based on fit, function & feedback

Collaborate with procurement to select leather grades, hardware & finishes

Maintain digital asset library (CAD files, tech packs, color specs)

Ensure all designs meet cost, durability and production-line constraints

Qualifications

3+ years in leather accessories/apparel design

Proficiency in Adobe Illustrator, CAD for fashion (Optitex, Clo3D, etc.)

Strong sense of color, texture and trend forecasting

Portfolio demonstrating end-to-end product development

Job Benefits

Competitive salary + design-bonus scheme

Professional development budget (workshops, trade fairs)

Health insurance & annual wellness stipend

20 days paid leave + national holidays

Hiring organization

Buter Leather Goods

Employment Type

Full-time, Part-time, Contractor, Intern
